

Vaccination for international travellers

All international travellers should be up to date with routine vaccines given in Australia.

Check if the traveller needs any booster doses before they leave.

Other vaccines can help protect against the following diseases:

Gastrointestinal

- ▶ Cholera
- ▶ Hepatitis A
- ▶ Typhoid

Zoonotic

- ▶ Rabies

Aerosols and droplets

- ▶ Meningococcal disease
- ▶ Tuberculosis

Insect-borne

- ▶ Japanese encephalitis
- ▶ Yellow fever

Take a risk assessment approach and vaccinate based on the traveller's:

1

health, age, lifestyle, occupation, and previous vaccines

2

travel itinerary

3

activities

likely risk of disease
